

2012 Republican Presidential Candidate Positions Matrix

January 1, 2012
Version 17

In 2012, voters across the country will have an opportunity to cast a vote for the next Democratic or Republican candidate for President of the United States. President Obama is running uncontested, but if you are considering to vote for a Republican candidate, the upcoming primary elections provide an opportunity for every American to cast an extremely important vote.

If you are still unsure about which Republic candidate(s) represent your values -- or if you would like to learn more about any specific candidate... more than 15 members from several liberty minded groups in New Hampshire -- the Southern NH 9.12 Project, the Greater Nashua Tea Party and the NH 9.12 Liberty Action Team -- spent hundreds of hours compiling a comparison matrix that can be easily used to cross reference each of the seven leading candidates on many of the important issues... ranging from Constitutional values, the economy, energy policies, immigration and social issues. Since first releasing this document, we have incorporated feedback from others who have read it.

The goal of this project was to assemble this PDF document in a factual, non-biased manner to provide detailed facts on each candidate that you may not learn anywhere else. You will find positives and negatives on each candidate... and armed with that knowledge you will be in a position to cast an informed vote for the candidate that is truly worthy of your support. Each candidate was sent a link to download this document on November 17, 2011 and was asked to provide input and corrections.

We make the same request to you: This document is a work in progress. If you find any factual errors, please send an email to Ken@SouthernNH912.com and we will make the proper changes as quickly as possible. Please include the issue, candidate's name and the position you think should be represented ("Yes" or "No" -- in addition to at least one link to a reputable web site to support the position.

As you review the document, you will see that a footnote reference number follows each position. You can either click directly on the footnote to display the web page where the information was obtained, or you can scroll down to the bottom of the document to view the link.

To obtain the most current version, please go to <http://www.SouthernNH912.com/>, and click on the link in the upper right hand corner for "Positions of GOP Candidates for President"

We hope you find the document to be as helpful as we have.
