WHAT IS "EDU-GATE"?

"Edu-gate" is the Sovietization (internationalization) of the American education system.

The meeting in Moscow was held under the auspices of the "Higher Education Cooperation in New Information Systems and Sciences" and approved by the U.S. State Department and the Soviet National Education advisors.

This represents the first step in the U.S.-Soviet educational agreements signed at the Geneva Summit in November, 1985 to promote "Cooperation in development of educational exchanges and software-related activities for elementary and secondary school students." (The Washington Post, November 24, 1985)

EDU-GATE IS THE REALIZATION OF WHAT ALEXANDER SOLOZHENITSYN WARNING AGAINST IN "ONE DAY IN THE LIFE." "THE EDU-GATE THISTLE KNIT EARTH SHOULD BE VIEWED AS AN INFECTION THAT SPREADS WITHOUT WARNING THAT IS NOT ENOUGH BUT ALSO WITHOUT VIOLANCE." OR TEMPTATION: "HOW TO LIVE, TO DO, WHAT TO THINK, WHAT TO KNOW AND WHAT TO TELL." (SEPTEMBER, 1974 Expresso 3-04)

Article IV of the General Exchange Agreement printed in the upper right corner of this page explains that Soviet curriculum will be used in American classrooms. Will these materials reflect the values that the U.S. seeks to instill in its young, what they say, what they think, to know and what to not know.

SOVIETS HAVE NOT MELLOWED

Ambassador Malcolm Toon, a career foreign service officer and former American Ambassador to the People's Republic of China, said in an interview with The Washington Post, June 15, 1985, "We must recognize the Soviet Union as a major power in the international community in its own right, and in its own style. And in this style, like all other great powers, the Soviet Union is opportunistic in nature and its foreign policy interests, as the Soviet Union sees it, are to consolidate their power wherever they think this can be done with impunity. .. ."

SOVIET CHILDL Stealing and Torture

Toon's statement is supported by the following information: 

- "The Soviets are taking children out of the schools and sending them to be trained in the USSR. We have heard from children in the schools that they have been deceived and if people ask where the children have gone, the answer is "in the classroom." (Emphasis added) . . .the parents afterward received letters from their children's schools in the Soviet Union. One of the children was asked, "Do American people know about this?"
- "The US government is using education from kindergartens to universities to the level of cultural, political and the mass media, to bring about cultural and political change in Afghanistan." (Emphasis added) . . .The Soviet government has restored the Afghan system -- installing Soviet textbooks, a new education curriculum and a reinterpretation of Afghan history. . . .
- The Washington Times, December 11, 1985, reported that President Reagan accused the Soviets of loading toys with explosives in Afghanistan. As a real cost, US children had their hands brown off when they picked up the "toys."

WHAT DOES AMERICAN EDUCATION HAVE TO GAIN BY PARTNERSHIP WITH A NATION WITH SUCH A "RUTHLESS AND BRUTAL TRACK RECORD"?

The late Norman Dodd, Yale graduate, served as the research director for an aufstand Congressional investigation of the U.S. atomic energy complex foundation. During the course of the investigation, Mr. Dodd was told by one of the committee's Foundation that "We operate here under directives with not a lot of our own. The White House changes the substance of which is that we shall use our grant as the best we can. But we can do the best for the State so that we can be comfortably married with the Foundation." (Emphasis added)

In light of this official evidence, shouldn't we ask: Upon which constitution -- U.S. or Soviet -- will cooperate develop educational social scientists learn? How can a program of cooperation under the auspices of the U.S.-Soviet cooperative agreement result in the establishment of a constitutional convention facilitate a Soviet Union-Soviet merger?

CONGRESS MUST INVESTIGATE PRIVATIZATION OF EDUCATION!

SPECIFICALLY WE CALL FOR AN INVESTIGATION OF THE FOLLOWING:

Although this advertisement deals specifically with the policy portions of the agreement, the political portions of the agreements are equally important. For example, according to the National Agreement States: "The parties will encourage exchanges of representatives of universities, primary and secondary states governments... to study various functions of government at these levels." (Emphasis added)

"The text of the U.S.-Soviet Education Agreements

READS IN PART:

ARTICLE 5 OF THE GENERAL EXCHANGE AGREEMENT: "The parties will encourage the conclusion, when it is considered necessary, of agreements between their educational institutions with respect to specific fields, INCLUDING THE HUMANITIES AND SOCIAL SCIENCES..." (Emphasis added)

ARTICLE 6 OF THE PROGRAM OF COOPERATION STATES: "The parties will encourage the exchange of professors and other secondary school teachers and other teaching personnel, as for research assistance, the conveyance of any of the results of teaching development, etc." (Emphasis added)

ARTICLE 6 OF THE PROGRAM OF COOPERATION STATES is in line with The parties will encourage the exchange of professors and other secondary school teachers and other teaching personnel, as for research assistance, the conveyance of any of the results of teaching development, etc.

Soviet involvement in American Education is a means to further the Soviets' goal of controlling our educational system. The report on the "Cooperation and Exchanges Between the United States of America and the Union of Soviet Socialist Republics for 1988-1988" must be available to the American public.
